CEO Message

GOOD DAY DEAR PARTNERS,

Today's volatile global economy requires businesses to make the best use of resources while delivering superior products and services.

The businesses that thrive, are investing in ways that not only meet today's goals, but also position them for competitive advantage.

Efull Technology is uniquely placed to assist our customers and provide superior service levels.

Our strengths lies in our team of highly trained and motivated staff as well as the well established strategic partnerships we have with the most influential Original Equipment Manufacturers (OEMs) and Vendors in the industry. To this end we are proud to hold some of the most advanced technology status certifications, which set us apart from our competition.

All of us at Efull Technology have contributed to the company's achievements over the years, and this has lead to the 295% growth since 2013. We are seen as a market leader in a diverse range of ICT infrastructure solutions. We have successfully completed many complex and challenging projects within large government, parastatals and blue-chip customers.

I would therefore like to also take this opportunity to thank our customers for their enduring loyalty to Efull Technology Nigeria Limited, our partners for continuing to collaborate and innovate with us and each one of our staff for their unwavering commitment to excellence.

Ni Jianzhong
CEO & Founder

History

— years of commitment —

Efull Technology began its sole journey in 2013 after breaking out of EGOGO Group of company with an ambition to build the best team of IT solution provider using cutting-edge technologies to ensure quality and reliable services. The plan was to work harder in order to be the best in the industry and leave a footprint for others to follow.

2001

We developed mobile system market in Nigeria and won our first CDMA mobile system contract with MTS.

2006

We registered EGOGO group, which is aimed at developing mobile system technical, IT Management Service and civil work in Africa. Same year, we became the biggest subcontractors to Huawei and ZTE in Nigeria.

2010

We design, develop and implement an ePayment system for Benin City transport ministry (ECTS) in Edo State.

2013

Efull Technology Nigeria Limited was incorporated, and continued the execution of the ECTS project in Edo State. Same year, we deploy & installed the first Transit advert screens on 70 buses in Benin, Edo state.

“ In each step of development, we use creative ideas, cutting-edge technologies and proven methodologies. It is rest assured that the software will be top-rated and most user-friendly.

2014

We move to install Transit advert TV screen in Lagos and Abuja. A total of 281 buses were installed.

2015

Installation of eMonitors (Cameras) in fleets of buses were carried out on buses in Benin.

2016

Installation ePublic transport system for city shuttle buses & long distance buses in Delta and Benin.
We developed the eParking system for parks and toll gates.
Started the development of the Railway eTicket payment system.

2017

We design & developed the TRAVELHUB app in corporation with Transportation Growing Initiative (TGI) under the Federal Road safety Corps.
We developed EFUPAY gateway system.

2018

We signed a contract agreement on ePayment system with TIC transport company in Lagos state.

2019

We install and commence the ePayment system for the Abuja Urban Mass Transport Company (AUMTCO) in Abuja.
